Reunion Mailing

August 1996

Directions to the Radisson Inn Site of the Sept 6 & Sept 7 Reunion

Follow signs from Logan Airport to the Sumner Tunnel. It is well marked. Toll is \$1. (Traffic is terrible during rush hour.)

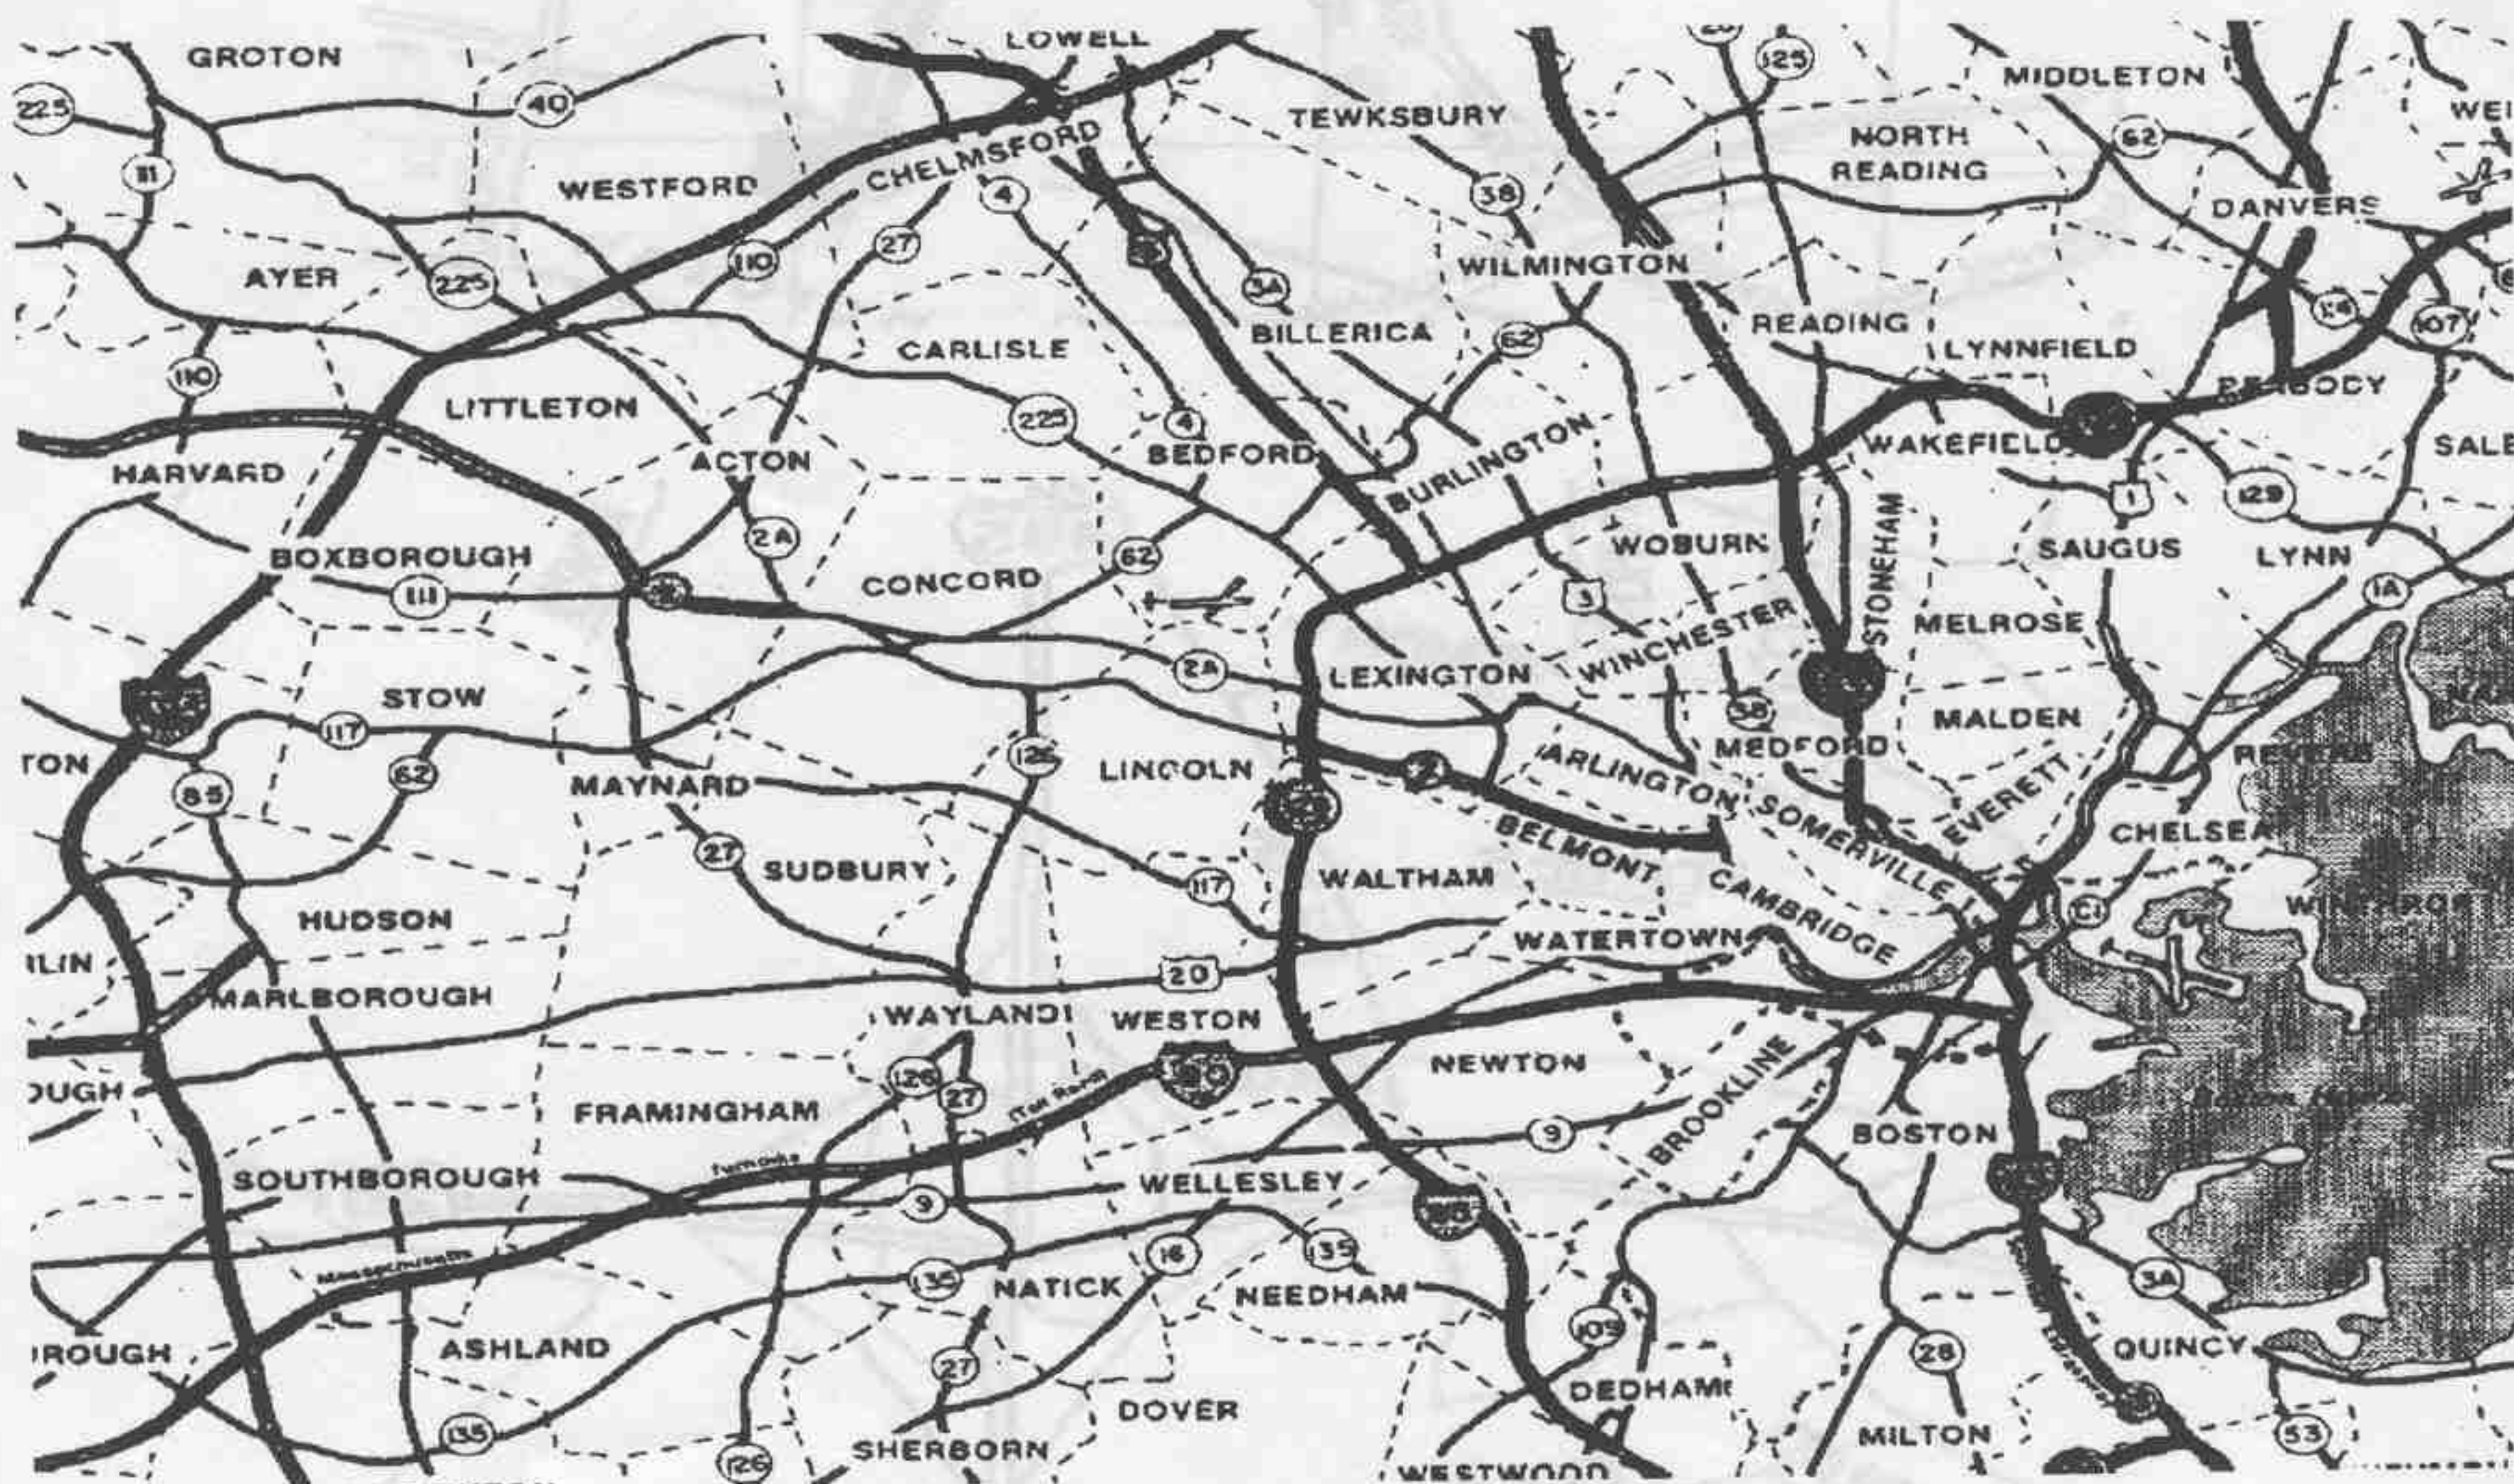

Mass Pike (Rt 90) exit is just as you emerge from the tunnel on the expressway. The Pike starts at this point, so you have no choice but to go West.

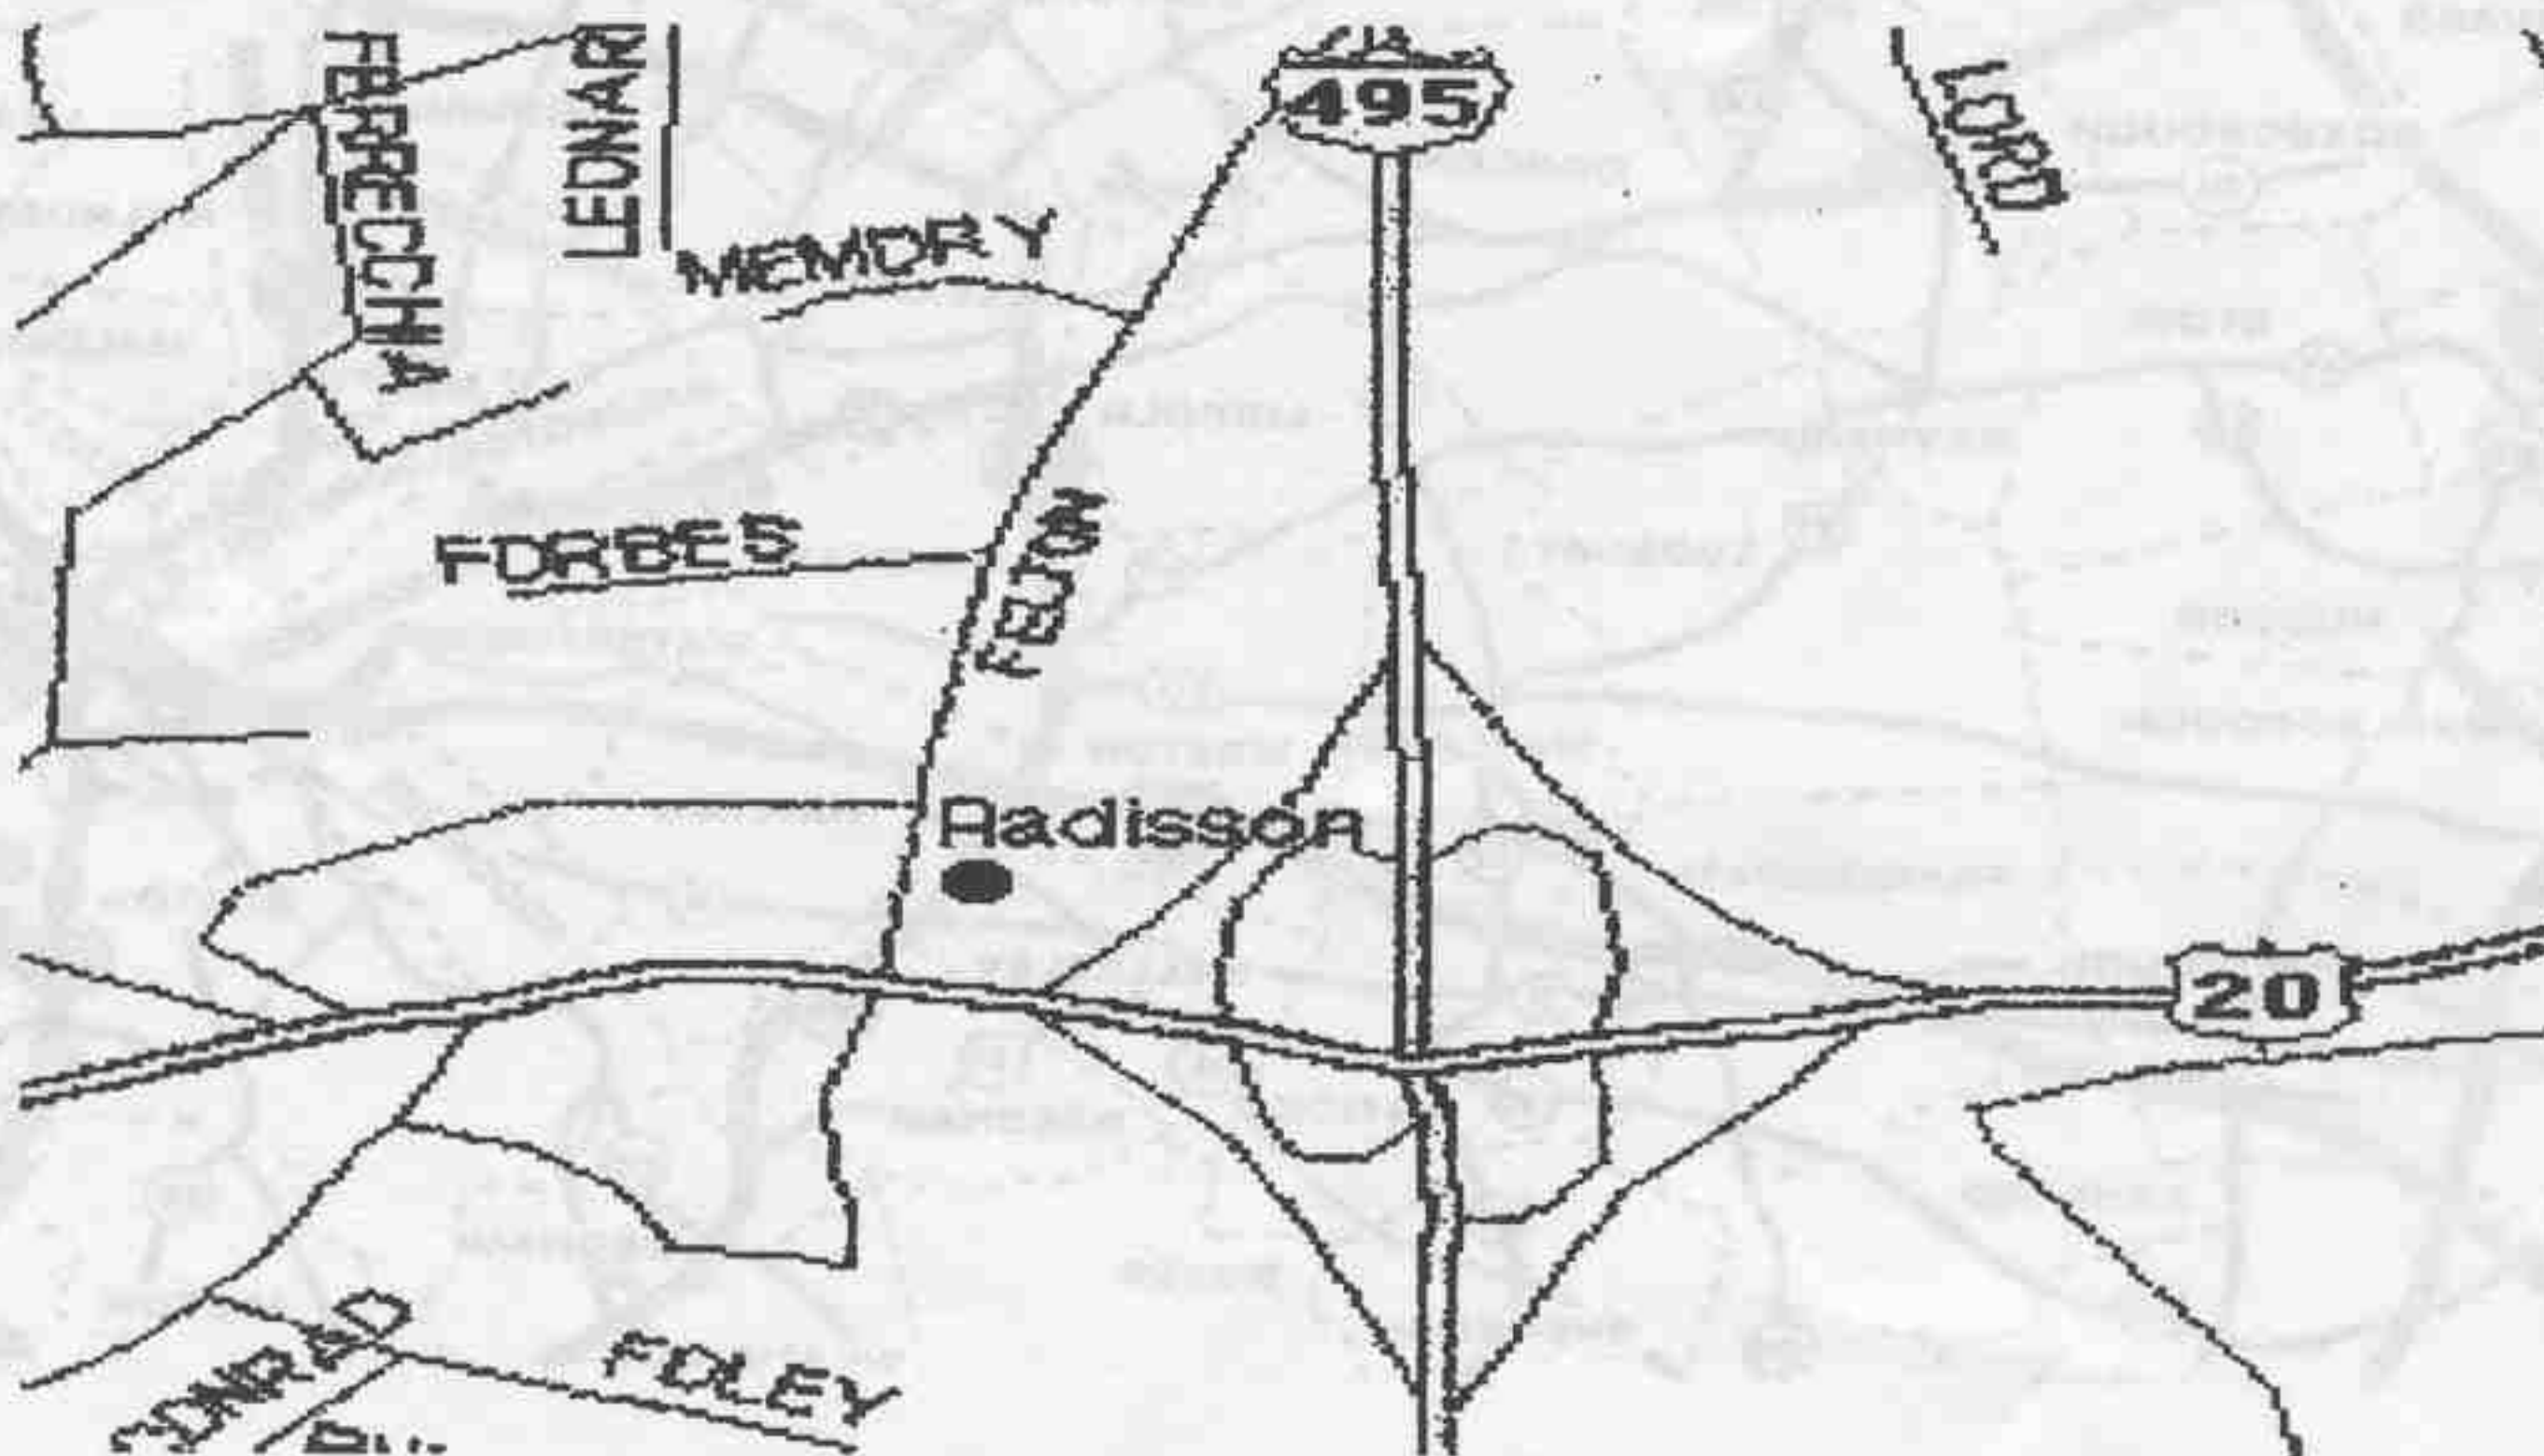

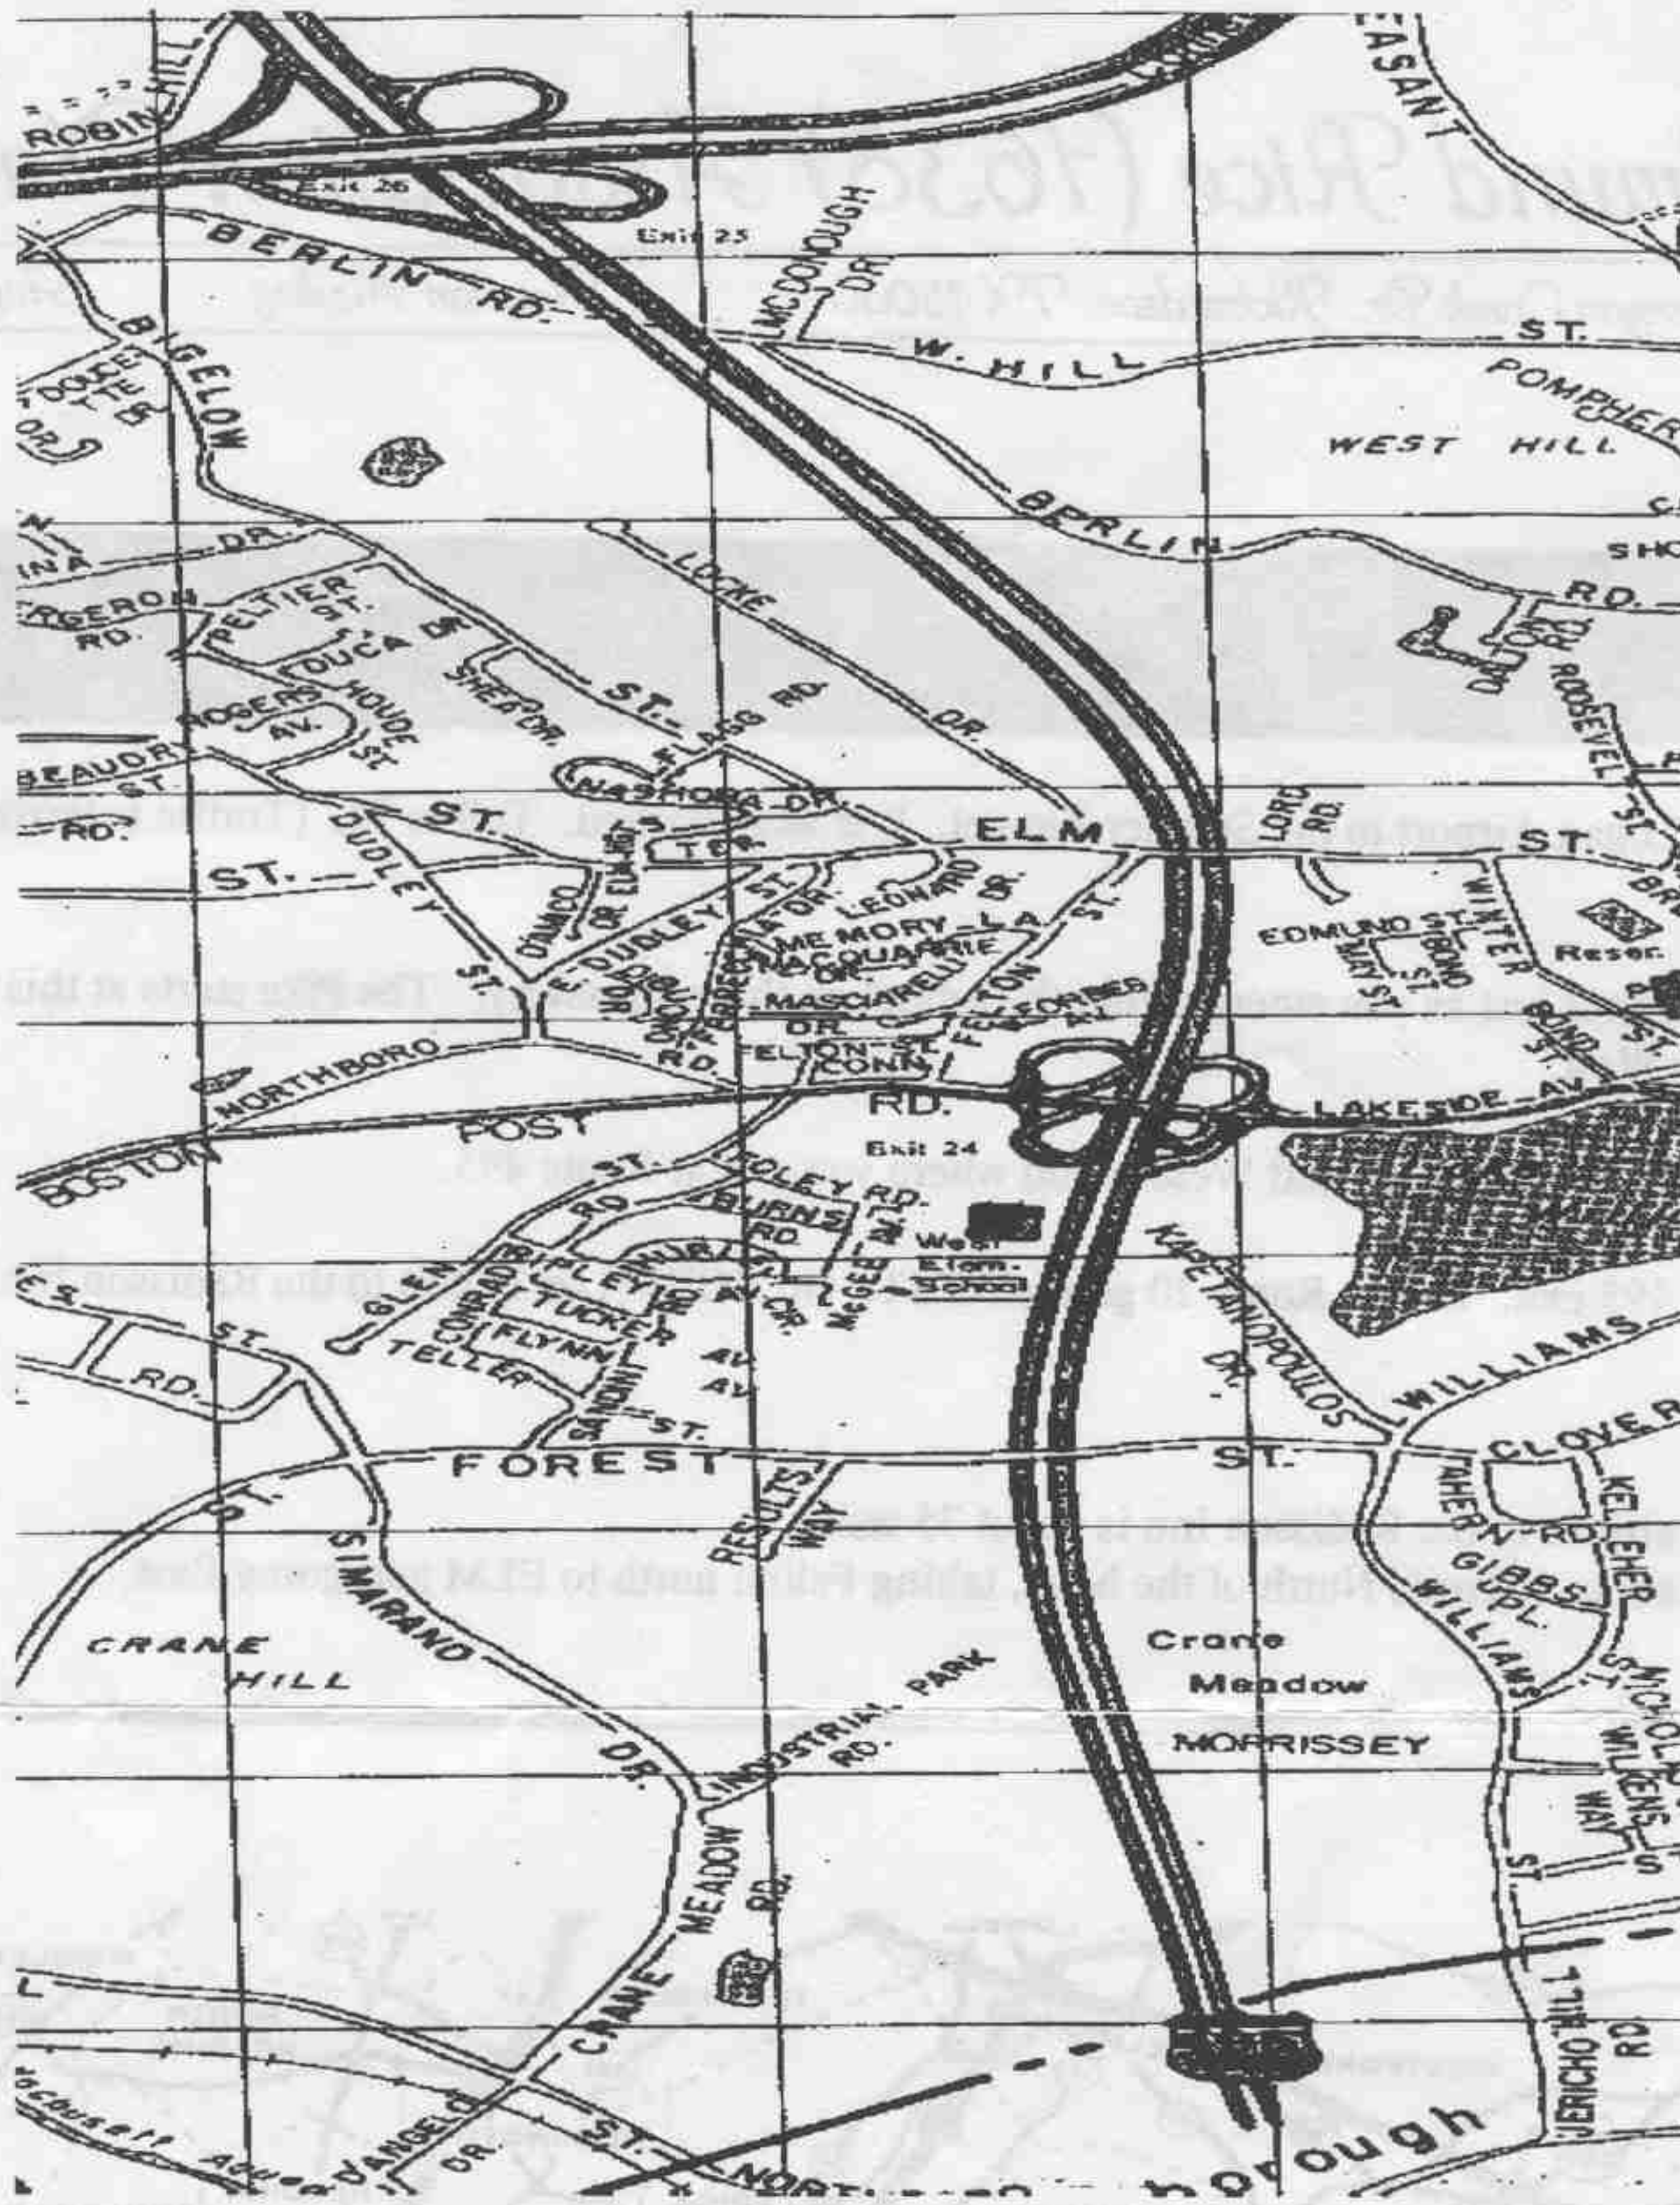

There are toll booths at Cambridge and Weston and where you exit at Route 495.

Go NORTH at the 495 exit. Exit at Route 20 going WEST. Go NORTH on Felton to the Radisson Inn.

Distance from the airport to the Radisson Inn is about 35 miles.

The Homestead is about 1/2 mile North of the hotel, taking Felton north to ELM and going East.

Rice Historical Sites in Wayland

Go EAST from I-495 on route 20 to Wayland Center. (about 12 miles to traffic light)

For the Edmund Rice Gravesite -- A

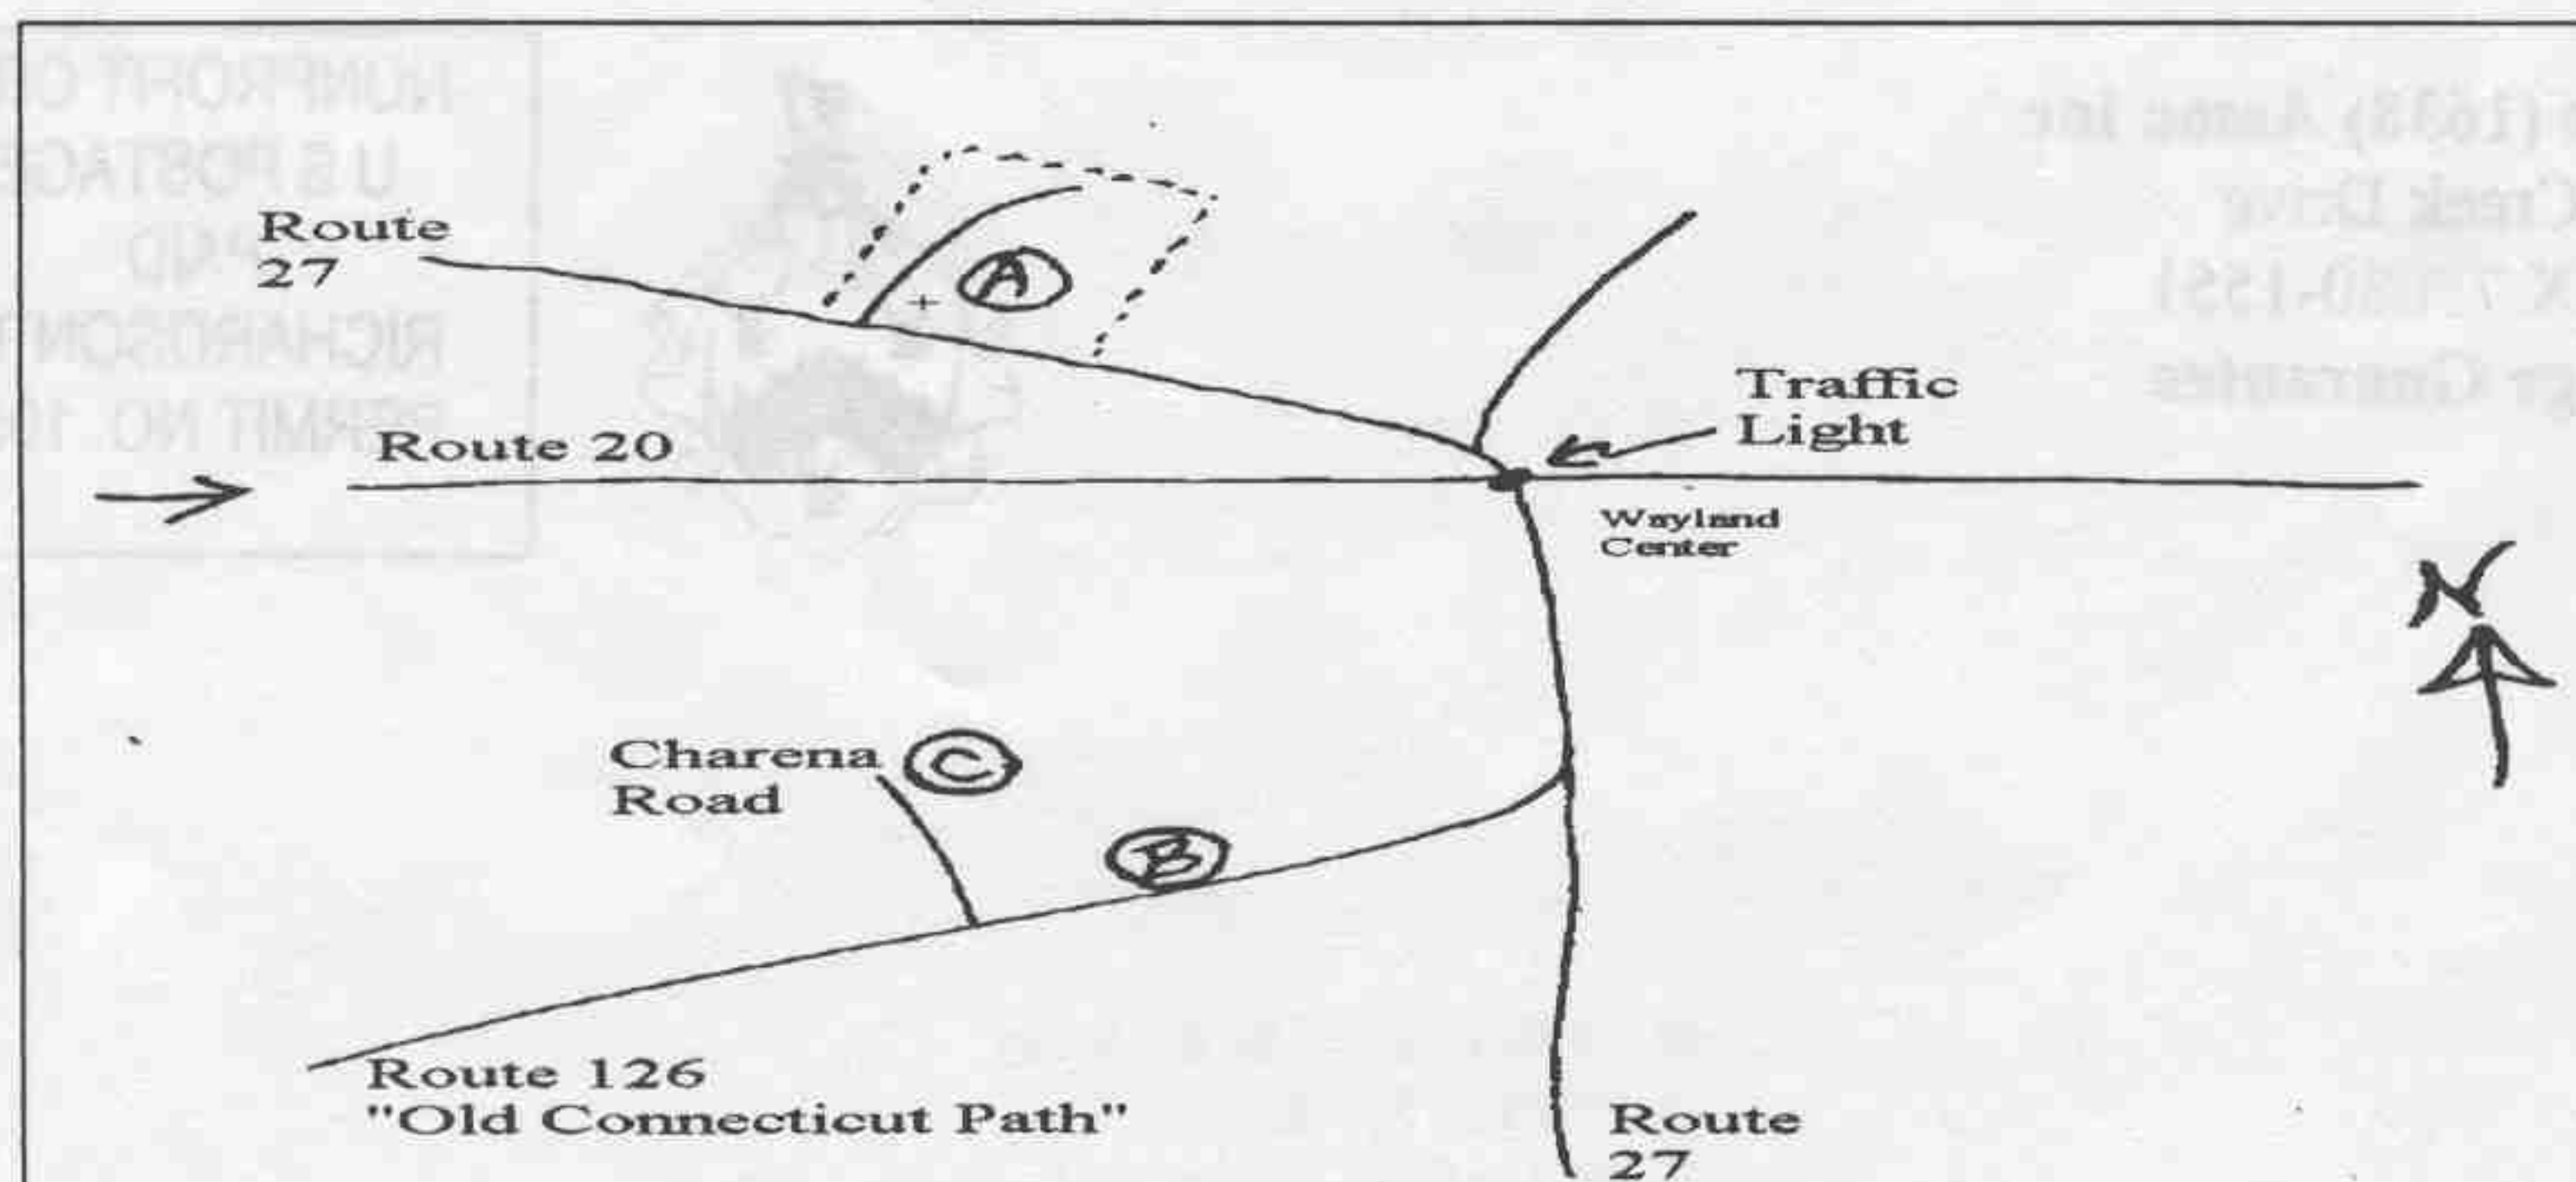

Go north from the traffic light on Route 27 about $\frac{3}{4}$ of a mile. Look for the cemetery on the right. Turn in and the grave stone is about 75 yards in, on the right, standing more or less alone.

For the Boulder Monument -- B

Return to the traffic light at Wayland Center. Go south on Route 27 about one mile. Turn right onto Route 126, "Old Connecticut Path". The boulder is about $\frac{1}{4}$ mile from the intersection, directly in front of #224 Old Connecticut Path. The boulder may be buried deep in the hedge, so you may have to look close to find it. This makes the bronze tablet hard to photograph so bring a flash.

For the Homestead Spring -- C

Continue on Route 126 for approximately 100 yards, then turn right on Charena Road. Follow Charena road to its end (about $\frac{1}{2}$ mile), and on the right is a swampy area that is all that remains of the spring. Close your eyes and imagine Edmund's house on this site!
